Natural Herbal Remedies to Improve Female Libido

According to an article published in the journal of the American Medical Association in 1999, 43% of women in the U.S. deal with sexual dysfunction. Hormonal changes in the body are one contributing factor for loss of libido. Many prescription medications have sexual side effects and just meeting the daily stresses of life can cause anxiety and over tiredness, which in turn can diminish sexual desire. Due to this, there is a search to increase female libido.

For those women who are looking for a more natural solution to increase female libido, GRANDMA'S HERBS has formulated FEMALE LIBIDO. This formula was created to increase female libido and sexual intensity without the side effects that drugs may cause. Many of the herbs in this formula are aphrodisiacs, some are mild anti-depressants, and others are known strengtheners to the reproductive organs. A second benefit of this formula is that it increases workout strength and energy levels and endurance throughout the day and helps to rebuild tissue after strenuous exercise.

When a woman decides to increase her female libido, there are positive side effects immediately. When you increase female libido you increase energy, lower daily **fatigue** and reduce irritability. This also helps to normalize hormonal levels which can lead to a better daily experience. When you increase female libido, this can also help with family life. It has been reported that in 5 years, sexual intimacy issues have risen from the number 3 reason for divorce to the number 2 reason. Of course to couple this with exercise and a **healthy diet** is a necessity. The lack of activity in one's life can be a leading cause of the lack of energy or vitality. Grandma's Herbs FEMALE LIBIDO can give you a jump start into an active life, providing you with the vim and vigor that so many times seems to be missing. So make that choice to be a happier and healthier "you" by using our herbal blend to increase female libido. [See ProductAdd Product to Cart](#)
